Workbook For Respiratory Care Anatomy And Physiology: Foundations For Clinical Practice, 3e

Synopsis

As an adjunct to the text, this workbook helps reinforce essential respiratory care A&P concepts learned in the main text. Various learning activities encourage you to use recall, application, and analysis to develop the necessary critical thinking skills. Exercises include listing, matching, and labeling activities; critical thinking questions; case studies; and key concept questions that provide review and practice for the NBRC credentialing exam. Direct correlation with the 3rd edition of Respiratory Care Anatomy and Physiology makes it easy to parallel workbook activities with content from the main text. A variety of learning activities include fill-in-the-blank, matching, and labeling exercises to help you assess your knowledge of text content. Open-ended critical thinking questions ask you to apply your understanding of text material with a written response.
