## Customer Reviews

I'm almost a junior in college, and this was my first time purchasing a textbook online, so I was really nervous! But wow, the seller (superspeedyship09) completely exceeded my expectations! I need this book for an Intro to Dental Hygiene class that I'm taking this summer, but didn't want to pay the full \$60 for it, and this company saved the day. Not only is the textbook cheaper through them (I only paid \$36.34 including shipping!), but it arrived way sooner than expected. The estimated delivery date was June 30th, and I received it on June 9th - incredible! The book itself was in great condition and the additional materials (like the CD) were included. To top it all off, the seller even hand wrote "Good luck!" on my receipt. Seeing that personal touch just warmed my heart! This was a great experience. If you're looking for textbooks at a great price from an amazing seller, I recommend buying from superspeedyship09! I will definitely be buying from them again if I need more textbooks in the future. :)

This book follows clinical procedures from beginning to end. I like the attention to detail. I would like to see more on the charting aspect however and more illustrations. I have yet to look at the companion cd but I am sure it is just as good as the book

Great price! Thanks
