Customer Reviews

I purchased this study guide many years ago (2005?) when I prepped for my mammo test and it definitely did the trick! Appleton & Lange have all kinds of great study materials. I love the CD-Rom with practice tests! That's the best way to learn in my opinion!

This book is fantastic! Each chapter has a detailed study guide with a self-test and answer key with detailed info. about every answer. This book was a tremendous asset in helping me study for the mammography registry.

I studied this book front to back, along with the ACR book and I passed with flying colors. ACR book doesn't cover digital and this book covers a little bit of digital. I recommend getting some knowledge elsewhere on that subject. This book is good to get you into test taking mode.

This book is a must have for the arrt registry.It contains up to date information and 2 practice exams to help prepare the student

I purchased this review book and studied it along with the ACR. Most of the information in the book was on the registry except it lacked pathology and there were a few errors when you took the practice tests in the book. You really had to make sure you reviewed the answers. I got a 90 a my mammo registry!! I highly recommend this book!! I was a self study and was not able to attend any conferences so my information came from this book and the ACR.

I bought this book to prepare for my mammo boards, knowing the radiography one had some errors but the amount of errors in this one is ridiculous. I am looking to find another book so that I dont fail my boards. If you do get it double check your answers and dont rely on the practice test answers because they are wrong 50% of the time!!!!

I used this study guide and found the questions and the style of questions very helpful for the ARRT Exam. I used this Appleton and Lange Study guide along with a guide from an initial mammography training conference and had no trouble passing the exam.

It was well worth the price. A very valuable aid in studying for the Mammography Registry, it gave me an idea of the areas I needed to study more. Each answer has a detailed explanation. I can now go in to the Registry feeling prepared.
