Jean Pigozzi is the rare photographer who has both a great eye and talent with the camera and also access to a set of people most of us only see on the screen. Through this book which captures what is obviously a very interesting life lived, Jean captures everyone from Bono to Jack Nicholson to DVF in a way we have never seen them before - lounging around the pool, having a good time. By the end of this, you'll find yourself wanting an invite to one of his pool parties too. Highly recommended.

Interesting book, but not a coffee table book as I expected, it's very small and looks insignificant, not something I would pick up to look through if I saw it on someone's table...

Ethnographers will be able to study these snapshots; this is what I love about M. Pigozzi's oeuvre: there is truth in the details, formally expressed and magically, also implied. Brilliant work.
