This book is a great resource for anyone who is just getting into day trading. It actually covers the area of Trading specifically set for beginners, giving step by step instructions from picking your own

platforms, to opening your account and brilliant ideas on the proper trading, giving you the real picture of the trading world. This book would surely make you get started with this business. It's a must-read for those who wants to start Day Trading. Great guide!

I am a definite beginner at investing and day trading, and this book helped me avoid terrible pitfalls that most beginning investors fall into. They made it extremely clear as to what means what. If you follow this book you will be well on your way making a profit through day trading. I recommend this book to anyone looking to make a full time income or a few extra bucks from making money through investing!

Awesome and informing book! This is a comprehensive guide to Day Trading. The book was written in a very organized manner. The author starts with the basic information on Day Trading like the reason for doing this type of investment and its terminologies used. The book gets exciting as you read because you get to know techniques and mistakes that you do in this kind of business. Really worth recommending!

This book contained some tips and strategies as to how to be a successful trader. This book got me warmed up with these basics. It is a must read for all whom desire to enter into the day trading market. The author of this book describes many important methods to learn a lot about day trading. The book also explains a lot of tips and strategies on how to be successful in day trading.

This book describes day trading techniques and basic strategies. I read a lot of books about investing and I found it complicated. With all these day trading strategies and more diligence on my part, I think everything will pave the way towards a successful online trading. After reading this book, I feel more confident now on embarking again this exciting journey of online trading.

This is an awesome book that guide us each and every secrete of trading. In this book you will learn specifically how to start and organize your daily trading activities, the different types of stock available, how to read a candlestick chart, and place different orders. We will conclude with a discussion on important "do's and don'ts" of day trading, as well as some techniques and strategies to boost your day trading performance.

I recently became interested in trading. I learn to options trading. But day trading has remained a

mystery to me until I bought this book. Thank you for a great book. Written all easy and understandable, so that even a novice understand. A lot of useful information is presented here. Now I am sure that my trade with each passing day is getting better and better.

Have always had interests in the stocks markets, have always been so curious to know the ropes, know how it works and operate, so I got this book. Day trading is one of the many ways one can invest in commodities on different stocks markets. This write up has opened the doors for me to trading daily as it has served as an introduction to the many ways I can invest my money wisely.
