Customer Reviews

Lots of fun facts and information on the Bay State. Presented in a format that allows my daughter to flip through the book and pick up new and insightful bits of information she regurgitates to us all later. Lets face it, kids are information sponges and this information is presented in a way that they want to soak it in.

My kids are 12 and 10. Maybe this was the wrong book for that age. It would have taken them 15

minutes to read. Back it went.

Very concise book but done well for kids. Points out places of interest all over Massachusetts. I learned a lot from reading it!

A real fun book and very interesting. It really held the interest of my children ages eight and nine.
