Scalping Is Fun! 2: Part 2: Practical Examples (Heikin Ashi Scalping)

Synopsis

Scalping is Fun! Part 2: Practical examples Scalping is the fastest way to make money in the stock market. There is hardly another method that can be found that increases a trader's capital more effectively. I explain why this is so in this four-part series on scalping. In this second book, I deepen my setup with many practical examples. You will learn how to interpret Heikin-Ashi charts correctly, when to get into a market and when to get out. Also, you will learn how to combine the setup with important principles of technical analysis. This highly effective scalping strategy can be applied in a short time frame; for instance, a 1-minute chart in addition to other higher time frames. You can trade using this universal method in equity indices and in the currency markets. Typical instruments, however, are futures and currencies.

Summary

1. Scalping with Technical Analysis
2. How do I Interpret Heikin Ashi Charts?
3. When do I Get In?
4. When do I Get Out?
5. Working with Price Objectives
6. Heikin Ashi Scalping in Practice

Customer Reviews

Part 2 of the 3 book series explains in a clear and precise way the scalping method of the author. Essential problems, 'when to get in' and 'when to get out', are solved with a lot of examples in different timeframes. My suggestion ? instead of finding the optimal timeframe try 'Range Bars' or 'Renko Bars' instead to focus on the price movement. Happy trading.

I like Heikin Ashi, so i read pt 1 and 2 combined, which was a nice read which motivated me to start with some demotrading with the techniques presented. Lets see. Nice price btw. Only thing that could better were the graphs, since i could not read the prices in the chart. (no zoom in as with other books i read on Kindle).

For the scalping Forex trader this is a must read!

Good work. It does contain what is advertised. The illustrations are relevant and useful for anyone regardless of experience level.

For the price, good value. I too enjoy scalping and was reminded of some important things to consider on trend days.

Great techniques to learn and try out. I will use the technique on the simulator first to see how it goes.
