# The Complete Book Of Puppet Theatre

## Synopsis

A superbly comprehensive book invaluable for everyone interested in making, and performing with, puppets. First published under the title *The Complete Book of Puppetry*, it rapidly became established as one of the most important books available on the subject. This new edition has been totally revised, updated and considerably expanded; it contains a wealth of new information and ideas, and extra chapters on a much neglected aspect of puppet theatre—performance. For the beginner, the book presents all the information necessary to progress to a high standard of puppet artistry; teachers will find it an excellent resource book for all educational levels; the more advanced puppeteer will be particularly attracted by the new techniques described, the excellent selection of photographs and the special emphasis on performance.
