Customer Reviews

I knew nothing about this topic when I started the book, and after finishing it, I think I understand it, at least a little. Very technical subject, but the author does a very nice job of communicating clearly. Not all lawyers can write for the non-lawyer, but Mr. Strauss is one.

Great book..... A must read for all business owners....He has tons of experience and his information is right on.....Very applicable to all business owners.

C I C is the future of financial planning for business and H N W individuals. The book quickly and painlessly gets you through the basics.

Excellent Book

Great comprehensive overview.

My CPA brought this strategy up for me to help me save some tax money and I wanted to get up to speed. I 100% feel I'm ready to have this discussion with the lawyer next week!

This is a very detailed explanation for someone interested in captives. It explains the concept in detail and is easy to read and understand.
