Mosby's Assessment Memory NoteCards: Visual, Mnemonic, And Memory Aids For Nurses, 2e

Synopsis

Use this set of colorful cards to review concepts in physical examination and health assessment! With 80 full-color cartoons covering key concepts, Mosby's Assessment Memory NoteCards, 2nd Edition uses humor and mnemonics to make studying easier and more fun. These durable, detachable cards are useful in preparing for the NCLEX® or classroom exams, as a clinical reference, for writing care plans, or for patient teaching information. Created by nursing educators JoAnn Zerwekh, MSN, EdD, RN, and Tom Gaglione, RN, MSN, this convenient study tool may be used as either a spiral-bound notebook or as individual flashcards. 80 full-color illustrated mnemonics cover key assessment procedures and tips. Sturdy, spiral-bound cards offer durability as well as portability. Colored tabs make it easy to find topics. Concise What You Need to Know monographs on each card provide more detailed information and specific nursing implications. Unique! Color highlights emphasize four central topics: Abnormal findings in pink, Common clinical findings in blue, Important nursing implications in yellow, Patient teaching in green. 24 new or revised cartoons cover current assessment topics, including these new cards: Electronic Health Record, I-SBAR, R-Symptom Analysis, OLD CARTS, Focused Assessment, Urine Ten Dipstick, Follow the Lines from Client to Port. The image collection, now part of the Evolve Instructor Resources, allows instructors access to the complete set of 80 full-color illustrations from Mosby's Assessment Memory NoteCards with qualified adoption.

Customer Reviews

this is very specific to assessment and for that its a good memory tool, but the jarvis pocket assesment book I found more useful as it had pictures and had i bought RNotes first I probably wouldn't have gotten this, but it does have some cute nuemonics to help remember things and every little bit helps.

Purchased this for my sister who is going through nursing school. She was very impressed by it for several reasons. She liked the portability of it, the humorous pictures, and of course the depth of information.If you have someone that doesn't have a sense of humor, this might not be the right product for them. Some of the pictures in here I found pretty comical, but I could see how they might possibly be considered offensive or similar. The information presented seemed like it would be easy to remember and easy to find. Fit nicely in her scrub pocket.Would recommend to any nursing students.

Great quick reference but not exactly what I was looking for. Some areas have quite a lot of information while others have just a few common facts. I purchased this as a study tool for nursing school.

These cards are amazing! They have cool little sayings and pictures for me to help remember important things in my nursing classes. I believe that my grades have improved with these flip chart notecard sets. I especially love the large colorful spiral ring the cards hold themselves on.

I really enjoy these study cards. I am a visual learn and enjoy the cartoon's and the information is essential material that is covered in the classroom. Cards are easy to take along outdoors, or studying away from the classroom.

I am somewhat of a visual learner. I personally thought this book was very helpful. It was not that helpful at first in the beginning of nursing school because your so focused in detailed about assessment. However, this book becomes very useful when you start your clinical rotations.

I am looking forward to using these cards with my beginning nursing students. The cards are bright and easy to read with concise and legible highlights about each assessment component in a compact notebook format. I can quickly find the most important facts about a particular system that I want to review with my students.

Another in an endless stream of text books for nursing school. The Notecard are great and informative and there is really not alot to say about it but that it is/will be useful for the course required.
