## Customer Reviews

This book gave some useful tips for using my GoPro camera. I got it for free; it certainly wouldn't be worth \$3 to me, since it didn't teach me anything that couldn't easily be found for free via Google.

This is a total piece of crap and isn't even worth a free read. It is written by someone with no command of the English language. This is a scam book and contains less info than the basic intro sheet that comes with the camera. don't waste your \$2.99!
